Plasticraft Rack Silver Plating Line

An Ex Aerospace Silver cyanide plating line with BEWT electrolytic recovery cell. Including 4 off polypropylene tanks of 220ltrs capacity, incorporating Silver Strike, Silver plate, Dragout, and Cold water Rinse stations. The drag out is pumped through the BEWT silver recovery cell to reduce the load on effluent and reclaim the silver metal. A craft rectifier with controls supplies the power for the two electrolytic tanks and anode and cathode rails are also fitted to these tanks.

Stock Code: MP653

Manufacturer: Plasticraft

New or Used: Used

Work Envelope (WxDxH): 600 x 600 x 760mm deep

Process Stages: Strike, Ag plate, dragout, CWR, Bewt

Other Info: A BEWT recovery cell included
