Machine Datasheet

Dust Control Systems Ltd Dustcontrol DC 11000

Sorry, this machine is no longer available

We might be able to meet your requirements with other Dry Dust Filters machines.

Stock No	EA1852
Manufacturer	Dust Control Systems Ltd
Model	DC11000
Serial	101060
Condition	From a working environment, Good Condition
Approx Duty CFM / M³/Hr	560 // 1000m^3/h
Filter Area ft² / m²	80 ft^2 // 7.4M^2
Other Info	Dirty air inlet Ø105mm
Weight (kgs)	220
External Dimensions (WxDxH mm)	570 x 1350 x 1700

Description

This Dustcontrol dust extraction system consists of a DC11000 filter system connected with a powerful 9.2kW fan and several Lindab SLU3005 silencers.

Cyclonic action forces the dust particles to the outer sides of the filter and the clean air is pulled through the filters into the central area of the unit and out via the fan and silencer assembly. The heavier particle fall to the bottom of the unit where they are collected and can be easily removed.

Typical Applications

- Aviation & Automotive industry.
- Ceramic Industry.
- Composite Industry.
- Construction.
- Food Industry.
- Metal Work Industry.
- Pharmaceutical & Chemical Industry.
- Printing.
- Process Industry.
- Transit Service.
- Waste Management & Furnace facilities.
- Wood & Plastic Industry.

Photographs taken prior refurbishment. Our refurbishment service is not available on all machines.
