

## ET Teknik Wet Turbine Rubber Belt Blast Machine

Fully constructed from stainless steel  
7.5kw/10hp main turbine blast wheel drive motor  
Turbine fed wheel blast action with rubber belt 700 x 680Ø and  
Multi jet rinsing phase  
Currently using stainless steel shot  
Dosing chemical delivered via 2 x internal spray nozzles.  
Auto loading device, pneumatically driven into position under PLC control 550 x 1000  
Auto unloading by reverse action of main rubber belt drum onto conveyor into work tray 330 x 1800 long  
Blasting and rinsing phase heated  
This is a specialist machine very suitable for cleaning, degreasing & surface preparation of remanufacturing of components  
Alternator housing, aluminium metal housing clean degrease remove surface rust and make surface uniform condition

## ET Teknik Wet Turbine Rubber Belt Blast Machine

Including comprehensive water recycling chemical clean and pumping station.  
Chemical additive from Thomas Schmidt product type DST Degreaz 9

**Stock Code:** SN279

**Manufacturer:** ET Teknik

**Model:** Type ET100RB

**Year of Manufacture:** 2002

**Serial:** ET8016

**New or Used:** Used

**Work Envelope (WxDxH):** rubber belt 700 x 680Ø

**Work Handling Method:** Drum and belt
