Smog Hog MSH 06 VS Industrial Air Cleaner

Sorry, this machine is no longer available

We might be able to meet your requirements with other Fume Extraction Fans & Scrubbers machines.

Stock No	EW1551
Manufacturer	Smog Hog
Model	MSH 06 VS
Serial	UK 20369
Approx Duty CFM / M³/Hr	500 // 850
Filter Area ft² / m²	N/A
Weight (kgs)	106
External Dimensions (WxDxH mm)	800 x 760 x 2140

Description

The SMOG-HOG MSH is an utlra-compact system that can be mounted vertically or horizontally to capture machining process emissions including oil smoke and CNC mists.

The SMOG-HOG MSH is Equipped with a variable speed drive motor, a heavy-duty pre-filter and a large capactiy ESP

cell, the MSH produces up to 500 CFM and can be mounted to the machine, ceiling or wall.

Smog-Hog line of electrostatic precipitators (ESP) is the compact mist collector. The collector is equipped with a powerful drive motor producing an air volume up to 500 CFM, a heavy-duty coalescing pre-filter and a large capacity ESP cell for maximum collection of oil mist, coolant mist and sub-micron fume.

This mist collector is extremely quiet and measures at only 800 x 760 x 2140mm, which allows for a variety of installations and applications.

Typical Applications

- CNC Machining
- Bolt makers
- Cold forming
- General metal working
- Gear cutting
- Heat treating
- Induction heating
- Lathes
- Plastic and rubber forming
- Quenching
- Screw machining
- Soldering
- Threading
- Vacuum pumps
- Wet grinding
- Wire drawing

Standard Features

- Air Volume 500 CFM
- Vertical mounting
- Single phase 115V/1PH/60Hz
- Door Interlock Switch
- Noise level less than 72dbA
- Ships fully assembled and ready to install
- Side filter access door with gaskets
- Fully welded 16” gauge cabinet to eliminate leakage
- Heavy-duty coalescing mist-stop pre-filter
- Metal Mesh After filter
