Work Envelope (WxDxH mm)	505 x 300 x 150 Basket 434 x 243 x 100
Process Stages	Single Stage Process Tank
Other Info	Simply on off operation.
Weight (kgs)	14
External Dimensions (WxDxH mm)	555 x 325 x 310

Description

Kerry model KC22 Ultrasonic Cleaning Bath

Guyson's range of 'Kerry' branded ultrasonic cleaners provide safe, fast and effective ultrasonic cleaning in a fraction of the time required by hand cleaning. Lightly soiled items such as jewellery may take only seconds; medium soil is normally

removed in two minutes or so.

The **KC ultrasonic bath**, with an approximate capacity of 22 litres, are easy to use, with a single on/off switch for the ultrasonics. Operating instructions are printed on the bath's front panel. Tanks are made from stainless steel.

Guyson pulsatron KC22

Guyson's kerry pulsatron kc ultrasonic baths offer the performance and reliability needed to meet the demands of many applications.

KC ultrasonic baths, with an approximate capacity of 22 litres, are easy to use, with a single on/off switch for both the ultrasonics and temperature.

Cleaning times are variable from 1 to 30 minutes and the pre set 50°C temperature from the 800W heaters, ensuring the same high level of cleanliness every time for a particular combination of component material, cleaning solution and contaminant.

All the kc tanks are made from stainless steel.

Typical cleaning applications for the Kerry range of ultrasonic cleaners

- Maintenance cleaning
- Precision cleaning on jewellery, clock and watch parts
- Optical lenses and frames
- Dental and surgical instruments
- Tattoo guns
- Printed circuit boards
- Smaller manufactured parts
- Laboratory cleaning in science labs, schools and colleges
- Removal of supports on 3D printed prototypes
- Removal of polishing compounds

Key features

- Integral Guyson Pulsatron 330W high efficiency generators with automatic tuning for powerful cleaning action. Baths rated for continuous use if required.
- Dual-purpose fail-safe, resettable thermal fuse - protects against over temperature operation / low liquid level.
- CE compliant.
