Description

Control Panel and Centrifugal pumps and motors.

Worthington Simpson close coupled end suction pump types WB, WJ & WJE form part of Flowserve's D Line range of pumps, a range based on modular components which use casings and impellers from the frame mounted range, designed to ISO standards.

This modular concept ensures maximum interchangeability of parts and the subsequent low inventory costs. WB, WJ & WJE pump units feature a single DIN 24960 mechanical seal as standard.
