

## Hedinair Gas Heated Batch Oven

**Sorry, this machine is no longer available**

We might be able to meet your requirements with other [Industrial Ovens](#) machines.

Stock No	<a href="#">OQ1026</a>
Manufacturer	<a href="#">Hedinair</a>
Model	Gas Heated Batch Oven
Serial	1505
Internal Size (WxDxH mm)	2.4 x 3.75 x 2.42
Max Temp	300°C
Other Info	Ideal for industrial coatings curing

### Description

This second hand gas fired box oven is built to a high standard with a heavy duty steel sub frame and steel sheet cladding providing 100mm thick insulation panels, the 300°C oven also has galvanised inner panels and a stainless steel burner box for a long a service life.

The ovens include the following standard features:

The Marketplace for Surface Technology.  
New and Used Process Equipment & Machinery.  
**Machine Datasheet**

- Double front loading doors.
- Electro Oil Int variable heat natural gas package burner rated at 60 - 210Kw
- Twin 600mm roof mounted air re-circulation fans.
- Steel sheet floor for ease of loading
- R/H side wall mounted control panel with Anglicon temperature controller.
- Rear twin explosion relief panels for use with potentially explosive atmospheres

The direct gas fired oven will ramp at full power until it approaches the set point then will modulate down to maintain the set point accurately and cost effectively.

Technical Specifications:

- Internal Dimensions – 2400 x 3750 x 2420mm high
- External Dimensions - 2950 x 4000 x 3400mm high
- Maximum Temperature – 300°C
- Doors – 2
- Power rating 60-210kW
- Heat up Time to 200°C (empty) = approx 20mins
- Tolerance Better than + - 10%
- Expected tolerance 5%

**Photographs taken prior refurbishment. Our refurbishment service is not available on all machines.**
