A second hand R Royce Industrial batch oven in good condition

The oven has been designed as an air circulated 550°C batch process oven with usable internal dimensions of 1000 x

The Marketplace for Surface Technology.
New and Used Process Equipment & Machinery.
Machine Datasheet

1000 x 900 mm high. Offering accurate temperature control and temperature uniformity.

Various heat treatment processes can be achieved within this unit including, annealing, drying, preheating, and stress relieving of various materials and components at temperatures up to 550°C.

The control panel is fitted with Eurotherm microprocessor temperature controls and a Chart recorder offering simple and easy operation.

The furnaces access is controlled by a mounted pneumatically operated uplifting door providing fast and easy access to the work chamber.

The chamber is heated via a Barter Aromatic 120,000 B.T.U gas radiant tube heater offering an indirect heat source.

The oven has also been fitted with removable guides allowing a wheeled trolley or basket to be located in the center of the ovens chamber.

Overall dimension 1600 x 1500 x 2400/3040mm*

* Height indicates measurement of door down/up
