

Industvent Dust Extractor (Polishing) with Filter Unit

Stock No	120-022
Model	Industvent Dust Extractor Unit
Year of Manufacture	1995
Approx Duty CFM / M ³ /Hr	8000-10000 CFM
Filter Area ft ² / m ²	24.5 m ² approx
Location	Noise
External Dimensions (WxDxH mm)	335x268x335cm

Description

Industvent Dust Extractor Unit with floor mounted belt driven extraction fan with motor capacity of approx 30 kW pulling approx 8000-10000 CFM.. The dust is trapped by 160 number 5 micron Polypropylene 200mm dia x 245mm high filter cloths for collecting dust and fibres from operating stations prior to discharge to atmosphere.

A shaker motor (0.33kW approx) removed the trapped dust to be collected in 6 dust collection bins.

Photographs taken prior refurbishment. Our refurbishment service is not available on all machines.
