

Blasting Hood COMFORT

This very comfortable, lightweight and value-for-money hood is suitable for any kind of abrasive blasting work.

Its design ensures constant airflow to the visor in order to prevent misting.

The Comfort hood is equipped with a pressure regulator, an airflow indicator and a cape.

In Comfort and Commander hood a regular glass, protected with a stainless steel net glass. You can cut other glass pieces if you need it to be replaced.

Easy and sure locking window frame

Pressure regulator and durable nylon cape

Air flow indicator for safety

Handle for easy transportation

6-point nylon suspension have quick and easy adjustments

Exchangeable cotton neck seal

Order code	Model	Price, €	Description
30000	COMFORT	135,00	Blasting Hood, a durable Nylon cape

Blasting Hood COMMANDER

This very comfortable, lightweight, rubber-coated hood is suitable for any kind of abrasive blasting work.

Its design ensures constant airflow to the visor in order to prevent misting. Its rubber coating makes the Commander hood wear-resistant and provides increased noise insulation. The Commander hood is equipped with a pressure regulator, an airflow indicator and a cape.

In Comfort and Commander hood a regular glass, protected with a stainless steel net glass. You can cut other glass pieces if you need it to be replaced.

Order code	Model	Price, £	Description
30100	COMMANDER	230,00	Blasting Hood, a durable Bisonyl cape

Blasting Hood PANORAMA

This very comfortable, lightweight, rubber-coated hood is suitable for any kind of abrasive blasting work.

The hood is designed with a wide viewing window. This is an important feature when the operator's movement is limited, e.g. in blasting rooms, while cleaning the internal surfaces of reservoirs, holds, etc. Its design ensures constant airflow to the visor in order to prevent misting. Its rubber coating makes the Panorama hood wear-resistant and provides increased noise insulation. The Panorama hood is equipped with a pressure regulator, an airflow indicator and a durable cape.

Order code	Model	Price, £	Description
30200	PANORAMA	255,00	Blasting Hood, a durable Bisonyl cape
30203		70,00	Disposable visors, pack 100 pcs.

OPERATOR SAFETY EQUIPMENT

Breathing Air Filter BAF

Designed to be used for supplying clean air to the blasting hood.
The BAF filter is designed to remove condensate, oil and up to 98% of particles having a size of 0,5 microns less.

The BAF breathing air filter is equipped with a pressure regulator, a pressure gauge, a safety valve and a drain valve.

The filter can be retrofit to work for two or more operators.

WARNING!
The BAF filter does not remove carbon monoxide (CO) and other toxic gases.

Air Filter Replacement Cartridge BAF-K

Replacement cartridges for the BAF breathing air filter. The cartridge should be replaced after ca. 450 hours of operation.

A filter only needs to be bought once. The cartridge alone is subject to regular replacement. The frequency of cartridge replacement depends on the quality of air supplied to the hood.

HOW THE CARTRIDGE WORKS:

- Carded cotton removes macro particles.
- Activated alumina absorbs oil and moisture.
- Activated charcoal removes odors and moisture.
- Felt material removes macro particles.
- Carded cotton additionally removes macro particles.
- Respiratory felt at final stage acts as final filter before air is transferred to operator (B).
- Water is removed by vortex action of air in outer cylinder.

Order code	Model	Price, €	Description
30400	BAF-1	285,00	Breathing Air Filter, 2 Outputs
30401	BAF-K	40,00	Air Filter Cartridge

Breathing Air Conditioner CCT

The CCT breathing air conditioner is designed for use with all blasting hoods Comfort, Commander and Panorama. It functions according to the principle of airflow separation and intended for heating or cooling breathing air which travels from the breathing air filter to the blasting hood.

**UNIVERSAL FOR ALL BLASTING HOODS:
COMFORT, COMMANDER, PANORAMA**

The output temperature of the CCT air conditioner is up to $\pm 20^{\circ}\text{C}$ below or above the input temperature.

Order code	Model	Price, £	Description
30350	CCT	99.00	Air conditioner cold /hot for blasting hoods COMFORT, COMMANDER and PANORAMA

Breathing Air Hose BAH

For connection between blasting hood and airline filter BAF.

CHARACTERISTICS.
Special thick-wall hose made from non-toxic materials. Thick-walls prevents the hose from buckling and pinching.

Order code	Model	Price, £	Description
30900	BAH	95.00	Breathing air hose 9.5 mm x 18.5 mm, 40 m. Roll incl. fittings

Blasting Overall

EXTRA THICK LEATHER FOR MORE PROTECTION

SPECIAL TREATMENT TO MAKES THE LEATHER SMOOTHER AND MORE ABRASION RESISTANT

DOUBLE SEAMED FOR MORE DURABILITY

Both zip and velcro closure for double dust protection

Elastic seals around the arms

Double-seamed for more durability

Fastenings on the pants prevent the entry of dust under the clothing

Cotton inner layer reduced leather pull ing in the knees

Long sleeves leather gloves

Order code	Price,£	Description
30700	120,00	Blasting overall Leather / Cotton size 50 , incl. gloves
30701	120,00	Blasting overall Leather / Cotton size 52 , incl. gloves
30702	120,00	Blasting overall Leather / Cotton size 54 , incl. gloves
30703	120,00	Blasting overall Leather / Cotton size 56 , incl. gloves
30704	120,00	Blasting overall Leather / Cotton size 58 , incl. gloves
30710	6,50	Long sleeves leather gloves
