Spencer Halstead Lift And Tip Elevator

Stock Code: VW1143

Manufacturer: Spencer Halstead

New or Used: Used (Second Hand)

Work Envelope (WxDxH mm): 890 X 700 X 1500

Other Info: Removed from a Tumbelt blast machine

External Dimensions (WxDxH): 1860 X 1160 X 3400

The Spencer Halstead lift and tip elevator has been designed to charge bulk feeding equipment with varying components, often having very high bulk densities. This especially covers metal components to be fed into Mass processing, metal finishing machinery, heat treatment lines, shot blast machines and electro-plating installations.

The Heavy Duty designed with "Jam Free Guideways for the "hoist chair" make this a reliable and robust piece of equipment for use in the workplace.

The complete emptying of the containers achieved as the hoist chair tips beyond 90°, to clear the container.

At the point of tipping the is equipment has a 500mm forward sliding offload traverse, to improve the reach and height of the machine.

Hoist chair capacity 890 X 700 X 1500mm
