Mattis DC 09 Dust Extractor

Sorry, this machine is no longer available

We might be able to meet your requirements with other Dry Dust Filters machines.

Stock No	EA1808
Manufacturer	Mattis
Model	DC 09
Year of Manufacture	2015
Serial	JD09E002
Condition	Excellent Condition, Ex demonstration, Seen powered at RSW
Approx Duty CFM / M³/Hr	400//680
Filter Area ft² / m²	35//3.5
Weight (kgs)	38
External Dimensions (WxDxH mm)	480 x 400 x 1040

Description

The Mattis DC 09 Man Shaker unit provides dust and fume extraction for a range of industrial applications.

The Man Shaker Units are commonly used in conjunction with small machine tools, Shot blast cabinets, dust hoods, extraction arms, and general dust and fumes generated around the workshop.

They consist of a centrifugal fan, twin filter section with manual clean shaker, hopper section, and dust collection bin.

The Man Shaker units are fitted with a manual cleaning shaker mechanism. This mechanism is simply activated by hand to shake any unwanted contaminants from the surface of the filter bags.

The particles then fall into the collection bin at the base for easy disposal.

Photographs taken prior refurbishment. Our refurbishment service is not available on all machines.
