

Filtered Galvanized Wash Down Booth

Stock Code: GA828

Model: Manual Spray Wash Booth

Year of Manufacture: 2001

Serial: N/A

New or Used: Used (Second Hand)

Approx Duty CFM / M³/Hr : Fan Capacity 3M³/ Sec (6,356CFM)

Filter Area ft² / m²: 3 x 595 x 595 x 47 panel filters

Other Info: Working Size 1960 x 1900 x 1660

External Dimensions (WxDxH): 2200 x 2000 x 3500

A wash down booth with built in extraction and lighting. Former Rolls Royce Machinery

This plant is one of several machines acquired during Rolls Royce's reorganisation of their manufacturing facility at Inchinnan, UK.

Their worldwide reputation for quality is reflected in the machinery and maintenance of their manufacturing plant. Many of these machines include features that are necessary for the manufacture and servicing of high quality engine components, but can provide a benefit to any industry.

Operation

Manually spray wash any items within the enclosed booth, powerful extraction system removes potentially hazardous mists and vapors when vented to a suitable ducting system.
