## Dust Control Systems Ltd Dustcontrol DC 11000

**Stock Code:** EA1851

**Manufacturer:** Dust Control Systems Ltd

**Model:** DC11000

**Serial:** 101052

**New or Used:** Used (Second Hand)

**Approx Duty CFM / M<sup>3</sup>/Hr :** 560 // 1000m<sup>3</sup>/h

**Filter Area ft<sup>2</sup> / m<sup>2</sup>:** 80 ft<sup>2</sup> // 7.4M<sup>2</sup>

**Other Info:** Dirty air inlet Ø105mm

**Weight:** 220

**External Dimensions (WxDxH):** 570 x 1350 x 1700

This Dustcontrol dust extraction system consists of a DC11000 filter system connected with a powerful 9.2kW fan and several Lindab SLU3005 silencers.

Cyclonic action forces the dust particles to the outer sides of the filter and the clean air is pulled through the filters into the central area of the unit and out via the fan and silencer assembly. The heavier particles fall to the bottom of the unit where they are collected and can be easily removed.

Air activated filter cleaning. When powered off the bottom flap opens to let out the particles fall out into a suitable waste container.

If purchased as 'Sold as Seen' there is no electrical control panel
