New or Used: Used (Second Hand)

Work Envelope (WxDxH mm): 910 x 650 x 650

Work Handling Method: Manual

Other Info: Large Heavy Duty Underslung Pressure pot

Weight: 300+104

External Dimensions (WxDxH): 1000 x 840 x 1820

The CBI Equipment AB1000 is an industrial pressure fed hand blasting cabinet.

This free standing unit has a heavy duty underslung pressure pot and Filtex FX 30 dust extractor.

The cabinet is designed to provide quick, clean and efficient results across a wide range of blast cleaning applications. It is manufactured from 2mm thick mild steel.

The FX 30 dust extractor is 350CFM, 1.5kW // 2 Hp, with 30ft² //3m² of filter area.

The blast pot being only a small capacity unit, benefits in that it can operate quite effectively with low compressed air volumes with the fitted tungsten carbide nozzle.

Features Include: Internal lighting. Left hand side door. FX30 dust collector, four bag and manual shaker mechanism. 350CFM Light and extractor switch. Sealed armhole/gloves. Full width window. Easy pressure regulation and adjustment. 240 Volt operation, with a 3 Phase dust extractor. Foot control pedal.
