Rotaclean Qube 600 Basket Spray Wash

Stock Code: DA1417

Manufacturer: Rotaclean

Model: Rotaclean R600

Year of Manufacture: 1995

Serial: Qube Q18

New or Used: Used (Second Hand)

Work Envelope (WxDxH mm): Basket Ø550mm : 200mm under wash boom

Process Stages: Single Stage Spray Wash

Other Info: Boom Rotates Under Water Pressure

Weight: 155

External Dimensions (WxDxH): 800 x 850 x 1190

An industrial quality, water based detergent cleaning machine built for tough cleaning needs.

Rapid cleaning of all component surfaces with safe detergents is assured by rotating components in the free rotating basket in front of the spinning 360° spray boom with numerous jets orientated towards the components.

The hot cleaning wash solution is driven by a high pressure stainless steel 6.6 bar pump through steel pipework that uses all of the available pump spray pressure for cleaning the components and driving the spray boom around the basket.

This system enables high wash solution flow rates to impact on the components and deliver superior cleaning results within a wide range of applications.

The compact machine footprint and ease of operation for high quality cleaning provides a winning combination. Basket size Ø550mm x 100mm high (300mm clear under the boom). Electric solution heating and process timer.
