Skako FVE090 Feeder MCE9000 Weigh Checker Pay Loader

Stock Code: MA766

Manufacturer: Skako

Model: FVE090 MCE 9000

Year of Manufacture: 1997

Serial: 59526/371044

New or Used: Used (Second Hand)

Capacity: 60kg load cells

Type: FVE090 - CCE - MCE 9000

Other Info: 90 litre volume with 60kg capacity

Weight: 298

External Dimensions (WxDxH): 550 x 2500 x 1720

The SKAKO VIBRATION – ON-Off-system is the culmination of over 35 years material handling experience and was developed in cooperation with customer whose products and production process requires automatic as well as consistent product feeding.

SKAKO VIBRATION - storage feeder type FVE are suited especially for feeding bulk material and also to untangle interlocking products to realise an automatic and consistent product flow.

Specifically for extreme interlocking products which are very difficult to be handled automatically

SKAKO VIBRATION developed the electronic ON-OFF-system where a storage feeder type FVE is combined with a vibration trough type CCE.

This trough is installed on a MCE 9000 60kg load-cell which allows a “communication” between the storage feeder and the vibration trough. The storage feeder batches small and controlled charges of product on to the vibration trough. The vibration trough feeds and spreads the product consistently to the following process machine.
