

## Electrical & Mechanical Fitters

---

This is an exciting opportunity to be part of a **dedicated and experienced team** supplying new and used machinery to the **UK manufacturing sector**, and beyond. 'Rileys' is a **supportive and growing company** with a commitment to quality that can offer a diverse and rewarding role for a candidate with genuine engineering knowledge.

### A Different Work / Life Balance

The engineering teams at Riley Surface World don't work shift patterns to support high-volume, high-pressure manufacturing.

The working week is 40 hours Monday to Thursday, for a full week's wage.

Fridays are your time, giving you a long weekend. Options are available if part-time work suits you better.

Hard work, skill and knowledge are valuable commodities, regardless of age.

If this sounds like the kind of business you would like to work with please contact us.

### The Role

Reporting to the Production Manager, the successful candidate will

- Repair and refurbish industrial machinery
- Demonstrate competence in trained factory tasks
- Minimise production times, costs and wastage

The team share responsibility to

- Assess the condition of incoming machinery
- Quality check machinery before despatch
- Undertake site visits to support warranty work
- Support the sales team with engineering knowledge

### Essential Skills & Experience

- Electrical and/or Mechanical Fitting, Maintenance or Engineering experience
- Experience with Riley's core product portfolio of industrial machinery (Oven, Furnaces, Industrial Parts Cleaning & Degreasing, Shot Blasting, Dust Extraction, Mass Finishing)
- Knowledge of pneumatics, hydraulics, steam systems, compressors, pumps, gearboxes and drive systems

### Beneficial Skills & Experience

- Recognised Engineering qualifications
- Electrical Engineering experience (17th Edition or 18th Edition)
- PLC Programming
- Fabrication and Welding

- FLT license
- IT Skills – Microsoft Office, Email & Internet
